

Studying life sciences, human biology or medicine at university?

Join our community for FREE as an undergraduate!

Enhance your career

Access mentoring and career resources

Expand your network

Meet your peers and leading physiologists

Boost your CV

Enjoy a range of practical training courses

Present your research

Practice your oral and poster presentation skills

“As a young physiologist, The Physiological Society is with me every step of the way. It’s a growing network that’s been vital in furthering my career. Through their grants and meetings, membership is essential for everyone interested in physiology.”

Rachel McCormick, University of Liverpool

Get involved with us as we raise the profile of physiology with the wider scientific community, policymakers and the public.
